

## Barrel Clamps

Barrel Clamps - A Barrel Clamp is actually a mechanical or hydraulic accessory for a lift truck. It can be used so as to clutch the object you need to move utilizing the forklift and is typically used for handling kegs, paper rolls and barrels. Some designs of barrel clamp attachments even have a rotate function. For instance, the revolving function enables a forklift operator to be able to put in a vertically stored paper into the horizontal intake of a printing press.
