

Meritor Part

Meritor Parts - The Meritor Business is a premier global dealer established upon 100 years of custom of service and quality. Meritor focuses on integrated systems together with a range of modules and components to the original equipment makers and aftermarket equipment in the industrial and transportation sectors.

Meritor prides itself in the company's distinctive energy and believes that this particular energy contributes to their competitive advantage in the worldwide operations. The business values their customers and wants to guarantee their success while anticipating their different needs. Meritor starts with a philosophy that values diversity of people and their broad thought processes. Operating in 19 nations and hiring more than eleven thousand two hundred people, Meritor promotes innovation and collaboration among a team of experienced experts.

Meritor strongly believes in only hiring future focused staff. These top-caliber individuals could rapidly get used to to changing surroundings and freely demonstrate the level of commitment and performance necessary to attain results for the competitive market environment. The business empowers their teams to make sound business decisions so as to improve the overall success of the business. In return, Meritor offers all of their staff different possibilities for professional and personal development.

The Advanced Engineering team is on the forefront of systems engineering and components. This includes axles, drivelines, braking and suspension systems used for medium and heavy duty trucks, off-highway vehicles, buses, military vehicles and trailers. The Meritor Advanced Engineering team is growing. They started a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives that represent the entire Asia Pacific region. This particular team is likewise responsible for supporting the requirements of all their global engineering personnel.

The Quality team at Meritor is a customer-focused and dynamic group that is devoted to ensuring optimum growth at their aftermarket distribution facilities and production plant that are situated on 5 continents and in 19 countries.

They have their supplier network that is specially located to be able to support the growth of the business. Every regional team has globally supported initiatives, quality systems and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a data-driven, fact-based approach to decision making in each and every part of the business. The DFSS or Design for Six Sigma ensures product reliability within each region. The team is even included transactional Green Belts who make use of Six Sigma tools to business techniques and apply lean techniques.
