

## Rockwell Part

Rockwell Parts - AxleTech International is a premier dealer in the globe of specialty vehicle drive-train systems and components together with off highway vehicles. The business prides itself on being its customers' preferred supplier. AxleTech strives to meet and exceed their clients' expectations for technology, delivery, quality and service. They believe in working within an atmosphere which encourages the highest integrity with empowered teamwork, together with a unyielding pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They place great emphasis on being an environmentally conscious business and providing a safe atmosphere for their staff to work in. In addition, they have implemented lots of programs within the organization so as to help convey these values in their business policy. AxleTech happily shares this policy and welcomes interested parties to offer them with whichever questions or comments, since they are glad to share and promote this policy with a greater knowledge of their efforts. They are really committed to preserving and improving the surroundings. AxleTech has an EHS program that not only protects the natural world but which even actively protects their neighbors and employees too.

AxleTech specializes in the designing and manufacture of planetary axles meant for both commercial and military applications, that could include anything from airport ground support to construction equipment. They take great pride in being a ground-breaking drive-train solutions provider too. AxleTech particularly designs axles in order to meet certain application demands. They have more than 1000 different axle specs in their existing offering. With over 100+ years of experience and history, AxleTech proudly supplies the most complete solution for whatever of your axle needs. The business is well known in several military and commercial applications. They offer complete axle assemblies used for aftermarket replacement needs, together with servicing axle needs for OE production. Their high mobility ISAS have added details that could be found in the "ISAS" product collection.
