

Lull Telehandler Parts

Lull Telehandler Parts - Telehandlers by Lull have been providing load placement accuracy since nineteen fifty nine. The Lull telehandler can help make the task easier and faster, whether the task entails transferring loads, positioning heavy steel or landing loads on scaffoldings. These units are available together with the patented Stabil-Trak stability system to be able to ensure operator confidence.

The horizontal placement system by Lull is able to supply 80 inches of boom travel for precision placement functionality. There are even various optional Lull attachments for their telehandlers so as to help do whatever task.
